REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance: No prior art anticipates or suggests, in a system for modeling a graphics object, means for converting an adaptively sampled distance field from a fixed level-of-detail to a variable level-of-detail while concurrently generating rendering primitives. This limitation is in all of the applicants' independent claims. Koch (U.S. Pat. No. 5,218,427) discloses means for generating an adaptively sampled distance field having the fixed level-of-detail from the model, and Garland discloses means for providing a model, parameters specifying a fixed level-of-detail and parameters specifying variable levels-of-detail in his paper, "Multiresolution Modeling: Survey & Future Opportunities."

However, since the numbering of claims is not in accordance with 37 CFR 1.126, which requires claims to be numbered consecutively beginning with the number next following the highest numbered claims previously presented, misnumbered claims 4-33 have been renumbered 3-32.

Any comments considered necessary by the applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the Office should be directed to the examiner, Lance Sealey, whose telephone number is (703) 305-0026. He can be reached from 7:00 am-3:30 pm Monday-Friday EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Zimmerman, can be reached at (703) 305-9798.
